LIVING STORIES N°1

New stories. New designs. New encounters.

Il registro compositivo di Lema si amplia con nuovi intensi racconti creativi. Nuove storie che, in sintonia con la discreta visione progettuale del marchio, sorprendono per il tratto garbato e i suggestivi dettagli capaci di far risaltare quel concetto di lusso sussurrato, mai ostentato. Progetti nel segno di una lieve alchimia di forme e materiali per case disinvolte, espressione del proprio essere, che invitano alla condivisione e al relax. Sintesi delle due anime di Lema, quella industriale e quella sartoriale votata al dettaglio e alla qualità che sottolinea il valore delle radici manifatturiere. Fluide nel ritmo, le numerose novità 2019 interpretano il vocabolario stilistico del marchio grazie al contributo di designer diversi per stile e metodo progettuale, a volte minimalista a volte più decorativo, a sottolineare ancora una volta la capacità di convogliare approcci diversi per comporre una collezione articolata ma sempre coerente.

The Lema collection expands further with strong new creative stories. In harmony with the understated design vision of the brand, new narratives surprise with their graceful lines and appealing details able to bring out that concept of whispered luxury that is never ostentatious. Designs with a light alchemy of forms and materials for a relaxed home, an expression of one's being, an invitation to sharing and enjoyment. A synthesis of the two souls of Lema, the industrial and the sartorial, focused on the detailing and quality that underlines the value of the manufacturing roots. With a fluid rhythm, the many innovations of 2019 interpret the brand's stylistic vocabulary thanks to the contribution of a variety of designers who differ in terms of style and design method, sometimes minimalist, sometimes more decorative, underlining once again the ability to incorporate different approaches to composing a collection that is both articulate and always consistent.

LIVING STORIES N°2

La casa per Lema è uno spazio cucito su misura dall'eleganza innata, definito attraverso i concetti di accoglienza, convivialità, relax e calore. Alla base, un concetto di lusso sottile che si definisce nei dettagli che un occhio esperto riconosce, sebbene appena sussurrati.

For Lema the house is a tailor-made space with an innate elegance defined through concepts of hospitality, conviviality, relaxation and warmth. At the heart, a concept of subtle luxury that is defined in details that an expert eye will recognize, even if only intimated.

LIVING STORIES N°3

Interprete dell'abitare contemporaneo, Lema sceglie un raffinato rigore stilistico ed un misurato senso estetico per disegnare case dallo spirito informale e rilassato. A caratterizzarle sono atmosfere disinvolute che trasmettono senso di piacevolezza.

An interpreter of contemporary living, Lema chooses a refined stylistic rigor and a measured aesthetic sense to design homes with an informal and relaxed spirit. They are characterized by serene atmospheres that convey a sense of congeniality.

NIGHT STORIES N°1

Suggestions for a relaxed and personal nest.

Al calare della sera, i ritmi si fanno più dolci e la casa Lema svela il suo lato più privato. Luogo della mente e dell'anima che invita alla tranquillità: rassicurante, personale, la zona notte di Lema vive anche oltre il riposo. Oggi sempre più versatile, è infatti spazio dove lavorare, leggere, rilassarsi, da vivere a tuttotondo. Attori protagonisti al centro della scena sono i sistemi modulari su misura, come Armadio al Centimetro e la cabina armadio Hangar, da sempre quintessenza di Lema. Programmi dalle infinite possibilità progettuali, altamente personalizzabili e capaci di assecondare ogni richiesta stilistica e funzionale. Frutto di processi produttivi all'avanguardia e in costante evoluzione, riflettono la stessa raffinatezza e cura delle collezioni per la zona giorno. Insieme ai sistemi, un'ampia proposta di arredi, letti, contenitori, sedute e complementi per dar vita a spazi intimi e personali.

As night falls, the rhythms become sweeter and the Lema home reveals its more private side. A place for the mind and soul that invites tranquility: reassuring, personal, the night area of Lema also goes beyond rest. Today ever more versatile, it is in fact a space for working, reading, relaxing, an all-round space. The protagonists at the center are the custom-made modular systems, such as Armadio al Centimetro and the Hangar walk-in wardrobe, which have always been quintessential to Lema. Arrangements with endless design possibilities, highly customizable and able to satisfy every request for style and function. The result of avant-garde and constantly evolving production processes, they reflect the same refinement and care of the living area collections. Together with the systems, a wide range of furnishings, beds, containers, chairs and accessories to create intimate and personal spaces.

NIGHT STORIES N°2

Come abiti sartoriali, Armadio al Centimetro e la cabina armadio Hangar, unendo sapere artigiano e tecnologia più evoluta, arredano ambienti da progettare a propria misura, spazi personali, dedicati a ordinare, contenere, capaci di emozionare per la loro estetica equilibrata e la grande funzionalità.

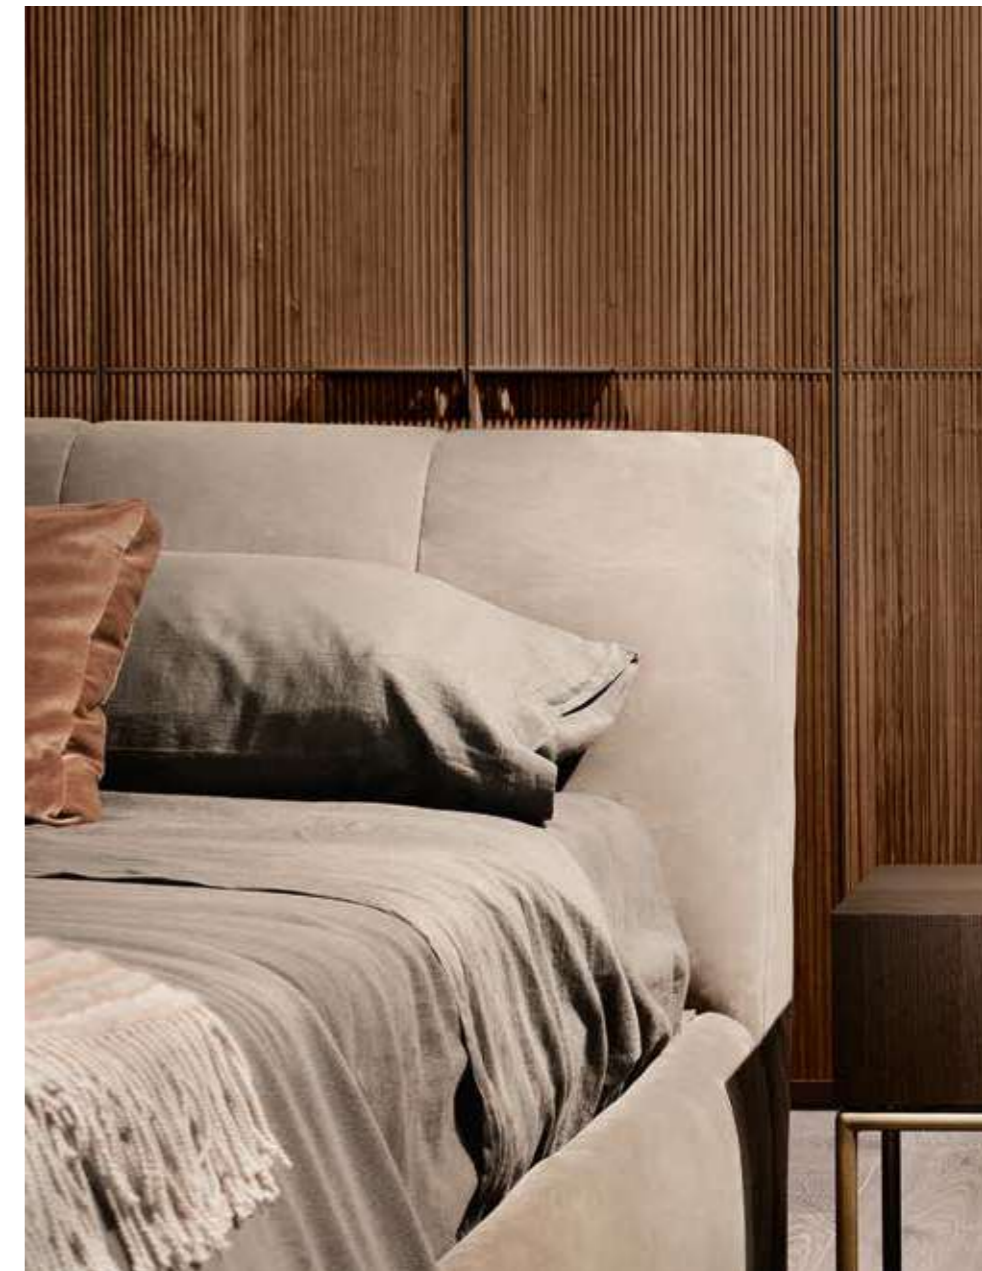

Like tailored suits and combining artisan knowledge and the most advanced technology, the Armadio al Centimetro and the Hangar walk-in wardrobe furnish spaces that are custom designed, personal spaces, dedicated to ordering, containing, and which delight through their balanced aesthetics and great functionality.

Lema Air Cleaning System

Benefici

- Abbattimento della carica batterica
- Riduzione degli odori oltre il 90%
- Riduzione delle microparticelle nocive presenti nell'aria

Applicazione

Lema Air Cleaning System è disponibile per i vani da 432 - 478 - 570 - 889 - 981 - 1165 mm, per ante a battente, pieghevole e coplanare. Il diffusore è disponibile in due finiture: verniciato bronzo e verniciato sand. Il ripiano collegato al diffusore è disponibile con o senza lampada "stripe".

Tecnologia, consumi e manutenzione

- Possibilità di scegliere tra diversi cicli con durata da 2 a 8 ore
- Sistema a basso voltaggio e amperaggio indipendente e comandato da un interruttore multifunzione sul fianco dell'armadio
- Ventilazione ERP2018 ad elevata efficienza energetica
- Manutenzione semplificata: sostituzione della lampada UV ogni 24 mesi
- Il dispositivo, durante il funzionamento è estremamente silenzioso. Inserito nel coperchio superiore dell'armadio e protetto dalle ante di facciata, la sua attività è poco percettibile dall'utente.

Benefits

- Destruction of bacteria
- Reduction odors by over 90%
- Reduction of airborne particulate matter

Application

The Lema Air Cleaning System is available for the 17" - 18¾" - 22½" - 35" - 38½" - 42¾" units, or hinged, bi-folding and coplanar doors. The diffuser is available in two finishes: bronze-painted and sand-painted. The shelf connected to the diffuser is available with or without the "stripe" light.

Technology, consumption and maintenance

- It is possible to choose between different cycles lasting from 2 to 8 hours
- Low voltage and amperage system independent and controlled by a multifunctional switch on the side of the wardrobe
- Highly efficient ERP2018 ventilation
- Simple maintenance: UV lamp should be replaced every 2 years
- The device is extremely quiet when in use. Positioned in the top cover of the wardrobe and protected by the front doors, it lies almost unnoticed.

Fragments of history

La forza di Lema risiede nella capacità manifatturiera, eccellenza tipicamente italiana, che ha permesso di coniugare i valori e le efficienze tecnologiche di una grande realtà industriale alla profonda maestria artigianale.

Prima in Italia a proporre sistemi modulari su misura per la zona giorno e notte, grazie al profondo know-how tecnico, Lema ha saputo evolversi costruendo una proposta completa per la casa che, oltre ai sistemi, include sedute, imbottiti, tavoli, madie, letti e complementi.

Cuore di Lema, lo storico stabilimento di Alzate Brianza progettato da Angelo Mangiarotti, dove le più moderne tecnologie convivono con l'heritage manifatturiero.

Lema's strength lies in its manufacturing capacity, a typical Italian quality, which has allowed the company to combine the values and technological efficiencies of a great industrial entity with a tradition of superb craftsmanship.

The first company in Italy to offer modular systems tailored to the day and night area thanks to the considerable technical expertise, Lema has evolved its production by building up a comprehensive proposal for the home which, in addition to the systems, includes seating, upholstered furniture, tables, sideboards, beds and accessories.

Designed by Angelo Mangiarotti, the historic plant in Alzate Brianza forms the heart of Lema and is where the latest technologies exist alongside the rich manufacturing heritage.
