## Venise coffee table code AF011 to replace the armrest

The Venise coffee table with a depth of mm 800 - 31 1/2" can also be used to replace the armrest, both in the widths of mm 300 - 11 3/4" or mm 180 - 7". In that case, you have to consider that the coffee table has a width of mm 360 - 14 1/4" and therefore, the overall dimension of that sofa will increase.

### Widths with armrest

### Widths with coffee table AF011

The coffee table, differently from the armrest, is never hooked to the sofa but is next to it and can be on the side or central, between several elements.
